

Puck Hole

- ❖ **Puck Hole** is based on shuffle board and cornhole. The object of the game is to slide pucks across the table and into the hole to earn points. A player or team to reach 21pts wins.
- ❖ **Rounds** - Opposing players battle by sliding four pucks, alternating players after every puck, to complete a round.
- ❖ **Earning Points** - You must outscore your opponent to earn points for the round. The difference in score is your earned points (AKA Cancellation Scoring). Points are scored by sliding the puck:
 - In the Point Zone (completely) = +1pts
 - In the hole = +3pts
 - Puck on the ground (AKA “Party Foul”) = +3pts for opposing team for each puck regardless of color
 - In the Trap = 0pts
 - In the Zero Zone = 0pts
 - Not past the Mid Line (AKA “dud”) = 0pts and the opponent may remove the puck if desired.
- ❖ **Winning** - The player to earn at least 21pts by the end of a round wins the game. Ties are not possible. You can score more than 21pts. You don’t need to win by 2pts.
- ❖ When playing singles, each player tosses to the same side. When playing doubles, each player’s partner is directly across from them competing against the other team’s partner. A coin flip can determine who throws first. The player/team that earns points in a round goes first for the next round. The team that wins a game, leads off the next game.

The Playing Table and Scoring Examples

- Shown here is doubles play, Blue team vs. Red team.
- Pucks must be completely in the Point Zone to count as a point. If any part of it is under the Foul Line Bar then it does not count as a point.
- Slamming the pucks can cause a puck to fall on the ground. The opponent receives +3pts for each puck regardless of color.
- **Scoring Example:** The Red team has 3pts for the puck in the hole, 0pts for the puck in the Zero Zone and one puck landed on the ground. The Blue team has two pucks in the Point Zone for 2pts and one in the trap. Assume the 4th puck lands in the Zero Zone. The Blue team receives 3pts for the Red team Party Foul puck. This makes it 5pts for the Blue team. Since it is cancellation scoring, the Blue team earns 5pts minus the Red team’s 3pts which equals 2pts for that round.

A “Four Pucker” is all four pucks in the hole
